Background Discussion

The Local Mitigation Strategy Plan (LMS) is the representation of a jurisdictions commitment to identifying, evaluating and planning to reduce risks from natural and man-made hazards. This multi-jurisdictional plan analyzes a wide range of community plans, capabilities, stakeholders and community characteristics to develop effective mitigation initiatives for the community, while also serving as a guide for decision makers as they commit resources to reducing the effects of hazards.

Florida Administrative Code 27P-22.004 requires that the plan be updated every five years. These regulations are designed to inspire regular review of the LMS so that it truly does exist as a living document within each community.

In 1999, Manatee County adopted the first LMS, along with each of the cities, with updates in 2004, 2009, and 2014.

Furthermore, the Robert T. Stafford Act requires communities to have an approved LMS plan before they are eligible for federal mitigation grants.
